PROJECT AND DESCRIPTION DIZIPLINA

Diziplina is a rock and clown programme full of mistakes - funny and absurd, sparkling and vivid – suggestng, in a cheerful and unvarnished way that one should not take oneself, others and perhaps even life itself too seriously. The audience witnesses a concert in which many things go wrong. The seriousness of musical performances is taken for a ride with a good portion of satire. **Diziplina** shows us that there is no right or wrong way to make music. Because not only discipline, but also creativity, spontaneity and energy are indispensable for music on stage. Thus, the band members do not represent the best example of order or good behaviour - in fact, they are just the opposite, an uncontrolled and unfocussed bunch of clowns! The strong desire for order on the part of the conductor contrasts with the poor discipline of the orchestra members. The situation comes to a head and threatens to escalate. But in this apparent chaos and to everyone's amazement, the eight energetic and lovable musicians finally manage to perform their concert and inspire the audience with rhythm, laughter and rock & roll.

La Ciscu Margaret is a rock and clown orchestra - a Chilean firework of wit and madness that combines music, theatre and clownery. Since its foundation in 2008, La Ciscu Margaret has performed on numerous theatre and music stages, such as the *Mímame Festival* in Colombia, the *Festival d'Aurillac* in France, the *Santiago a mil Festival* or the *Lollapalooza* in Chile.

In 2016, the band won the Chilean culture and art fund *Fondart* to tour with three of their productions. In 2014 and 2015, La Ciscu Margaret also toured Chile, Peru and Colombia as a circus orchestra under the direction of Jeff Hall and Catherine Archambault (*Cirque du Soleil*).

La Ciscu Margaret consists of eight actors whose studies focused on physical and comic theatre, as well as music. Together they make the comic and the absurd come alive and lead the audience on a journey of discovery into the true and original essence of the clown.

The band's characteristic ingenuity, spontaneity and boundless energy merge with the music they have written themselves- from blues to reggae, swing and mambo to cumbia, ska and rock'n'roll - leaving the audience vibrating.

With more than 13 years of experience, La Ciscu Margaret can guarantee the audience an unforgettable evening that will make even theatre and music grumps marvel, laugh and dance.

DISCOGRAPHY & PRODUCTIONS

La Ciscu Margaret has created four productions so far. After graduating from drama school, the band's musicians and actors created their first show, CABARET CLOWN, combining various theatre numbers with original Ciscu Margaret music. After the success of this first production, La Ciscu Margaret developed their music further and released their first CD in 2013, whose music is integrated into their stage production DIZIPLINA, where mistakes and disorder are protagonists. In 2015, the band develops a second CD and the associated SUMMER SHOW, inspired by the summer and the life of musical instruments. In 2021, due to the pandemic, the band developed an online production for audiences to enjoy at home.

DIZIPLINA was updated in 2017 under the direction of Rodrigo Malbran, student of Jaques Lecoq and director of the La Mancha International Theatre School in Chile. In the year 2022 the band creates a different version: Diziplina 3.0, with a new musical repertoire and an eloquent critique of social networks.

LACISCU MARGARET IN THE CIRCUS

La Ciscu Margaret has also worked alongside international artists in various circuses, both musically, accompanying the numbers on stage with their original music, and theatrically, helping to animate the shows as clowns, performing circus numbers with the artists, or reproducing her own Ciscu Margaret theatre numbers. Some of these international circuses were led by Cirque Du Soleil choreographers and directors, such as Circo Jumbo, with whom Ciscu Margaret toured Chile, Peru and Colombia in 2014 and 2015. The band was also part of the American Circus and Circo lo Barnechea in Santiago de Chile.

Ciscu Margaret's performances in Europe, Latin America and Chile have been increasingly covered in the press, as well as in interviews, on television, radio and on virtual platforms of Chilean and international media.

"...There are good bands. Good comic actors too. But an orchestra that both sounds and makes you shake with laughter is not so easy to find! Until now, at least: La Ciscu Margaret is the world's first rock and clown orchestra, the perfect blend of humour and music, which has already performed in Chile, Peru and Colombia...".

La banda nace de la necesidad de mezclar el teatro con la música. Seis actores nterpretan a un personaje distinto, se trata de clowns algo decadentes pero nobles músicos bohemios perdidos en el tiempo, que juntos dan cabida a distintos estilos que van desde el swing, twist v rock'n roll hasta, ska v cumbias.

Para sus integrantes, trabajar como actores-músicos multiplica las posibilidades de ntretenimiento e imagen, sin deiar de lado una excelente calidad musical. Estas aracterísticas los hacen protagonistas de un espectáculo de risa y baile de singular
